January – February 2010

“Building Vital and Faithful Worship”

All adult and youth classes have combined for a study of worship renewal taught by Pastor David in the overflow room behind the sanctuary. This is not a “how to worship” study, but rather an exploration of the issues that get in the way of meaningful, transforming worship. Too often worship is evaluated by personal preferences of, “I like it,” or “I don’t like it,” which determine a congregation’s worship style. Beginning with the premise that worship is about God and not us, we will identify the positive traits of church that have been revitalized through their worship practices.

.....Notice.....
CareNotes Deadline

January and February will be combined into one issue which will be mailed on or about January 21-22. The cut-off for articles is today, Jan. 17th.

Contact Sara L. if you have questions. *Thanks!*

Christmas Videos Available

Did you miss the Christmas Eve service or would you like to experience it again? Larry Egolf, our audio-visual specialist, has captured the magic of Christmas Eve on DVD. Contact Larry if you would like a copy. He is generously supplying these at no cost. Thanks, Larry, not only for making these available but also for all you and your team do behind the scenes on Sunday morning.

Food Pantry Needs

We need dried beans, rice, noodles and pasta. Please place donations in the food box by the elevator. Thank you for helping those less fortunate.

Winter has arrived! We don't often call off church because usually some people can still come. However, if the weather is severe enough and church is cancelled, the information goes out to the TV stations, especially Channel 15 and through the prayer chains. Also, every effort is made to keep the church parking lot and the sidewalks as clear as possible. Using our funds wisely, means there must be at least 2" of snow on the parking lot before it is plowed.

Purity and simplicity are the two wings with which man soars above the earth and all temporary nature.
